

Hospital Insurance

How does it work?

Hospital Insurance helps covered employees and their families cope with the financial impacts of a hospitalization. You can receive benefits when you're admitted to the hospital for a covered accident, illness or childbirth.

Why is this coverage so valuable?

- The money is paid directly to you — not to a hospital or care provider. The money can also help you pay the out-of-pocket expenses your medical plan may not cover, such as co-insurance, co-pays and deductibles.
- You get affordable rates when you buy this coverage at work.
- The cost is conveniently deducted from your paycheck.
- The benefits in this plan are compatible with a Health Savings Account (HSA).
- You may take the coverage with you if you leave the company or retire, without having to answer new health questions. You'll be billed directly.
- The plan provides enhanced Hospital benefits of 50% when you use hospitals owned, operated, or controlled by your employer. This enhanced benefit applies to Hospital Admission and Hospital Daily Stay.

Hospital Insurance can pay benefits that help you with the costs of a covered hospital visit.
